Cold Machines

Alice Cooper

I see you working at your station
Radiation burns my eyes
Love's forbidden so is passion
This whole place is sterilizedI just want to see tomorrow
Day by day to just survive
But this place is built to kill me
No one here gets out aliveI don't want to be
I don't want to be
Just a memory
I don't want to be
I don't want to be
GoneYou don't know my name
You don't know my number
You don't know my face at all (at all at all at all)
We walk right past each other, every single day
Like cold machines, we're marching on and on and on and on and onGot your thumb print always with me
Got your barcode memorized
They came here to electroshock me
But can they erase you from my mind?I don't want to be
I don't want to be
Just a memory
I don't want to be
I don't want to be
GoneYou don't know my name
You don't know my number
You don't know my face at all (at all at all at all)
We walk right past each other, every single day
Like cold machines, we're marching on and on and on and on and onI don't want to be
I don't want to be
Just a memory
I don't want to be
I don't want to be
GoneYou don't know my name
You don't know my number
You don't know my face at all (at all at all at all)
We walk right past each other, every single day
Like cold machines, we're marching on and on and on and on and on
