## **Could It Be**

## **Tevin Campbell**

Are you satisfied With the way I love you Are you satisfied 'Cause I just can't deny That the way you love me Makes me melt inside I'm a gonna give it all p my baby As long as you want it My kiss is gonna cover your body up and... Down and all around Until the break of dawn Until the break of dawn What's your fantasy Maybe we could play it out Just you and me In my wildest drams I couldn't have imagined such intensity No I'm never gonna give you up my baby A s long as you want me My kiss is gonna cover your body Up and down and all around Until the break of dawn Until the break of dawn I wish that I could extend The little time that we spend And so I hope that you intend To stay with me at least until the break of dawn Until the break of dawn Until the break of dawn
