

# Be Myself Again

## Union Carbide Productions

I feel so way by down and out  
And I know that soon my time is running out  
I've been so high and I've been so low  
And all the time I've was movin' too slow  
But I guess that time takes a friend  
To be yourself again  
To be myself again  
To be myself again  
To be myself again I don't need your books to know how to read  
While this mind of mine is just filled up with speed  
You told me this now you're telling me that  
Well, did I ever tell you how to act  
'Cause you know it's time, time to pretend to  
To be yourself again  
And I'll be myself again  
Be myself again  
Be myself again  
Again
