

# I Think I'm in Love

John Hummer

Sun so bright that I'm nearly blind  
Fool as I'm workin' it out in my mind  
Warm as the dope runnin' down my spine  
But I don't care 'bout you and I've got nothin' to do  
Feel the warmth of the air that I breathe  
Even free-er than DMT  
Feel the warmth of the sun in me  
But I don't care 'bout you and I've got nothin' to do  
Love in the middle of an afternoon  
Just me and my spike in my arm and my spoon  
Feel the warmth of the sun and the moon  
But I don't care 'bout you and I've got nothin'  
I think I'm in love, probably just hungry  
I think I'm your friend, probably just lonely  
Think you got me in a spin now, probably just turnin'  
I think I'm a fool for you, probably just learnin'  
I think that I can rock and roll, probably just twistin'  
I think I wanna tell the world, probably ain't listenin'  
Come on  
I think I can fly, probably just fallin'  
I think I'm the life and soul, probably just snortin'  
I think I can hit the mark, probably just aimin'  
I think my name is on your lips, probably complainin'  
I think that I have got it bad, probably contagious  
I think that I'm a winner baby, probably Las Vegas  
Come on  
I think I'm alive, probably just breathing  
I think you stole my heart now baby, probably just stealin'  
I think I'm on fire, probably just smokin'  
I think that I'm your dream girl, probably just dreamin'  
I think I'm the best, probably like all the rest  
I think that I could be your man, oh, probably just think you can  
Come on  
I think that I'm in love  
I think that I'm in love  
I think that I'm in love
