Just like them

TYDISH

I know it?s hard but, you know,
let?s go
there?s something different in your eyes baby,
you can?t seem to look into mine lately,
tell me what is on your mind baby,
or I?m gonna assume that something?s wrong
chorus:
I thought that you were different from the moment that we kissed,
?cause all those other women couldn?t care less if I lived,
and I?m not barely trippin I just can?t do this again,
please don?t tell me you?re just like them,
please don?t tell me you?re just like them,
you?re just like them
I know that it?s hard to trust love,
but you need the trust that my love,
Will never leave you in the dust
chorus:
I thought that you were different from the moment that we kissed
?cause all those other women couldn?t care less if I lived,

and I?m not barely trippin I just can?t do this again
please don?t tell me you?re just like them
please don?t tell me you?re just like them
you?re just like them
baby you ain?t get this love on track,
will you run away baby girl and we don't have to look back,
you know that I love you girl so tell me what you?re waiting for,
you gotta know know know know,
know know know know know know,
know know know know know know
chorus:
I thought that you were different from the moment that we kissed,
?cause all those other women couldn?t care less if I lived,
and I?m not barely trippin I just can?t do this again,
please don?t tell me you?re just like them,
please don?t tell me you?re just like them,
please don't tell me you're just like them,
do do do do, do do do do (x4),
lets go
