## You Went Away

## **Tegan and Sara**

You went away
'Cause you said that you can't stand me
So I went away

I was sure that you can't stand meWell, I don't think we have to be like this forever Is there more to life than love and being togetherYou went away

'Cause you said you couldn't love me

I went away

'Cause all I do is love youWell, I don't think we have to be like this forever There's more to life than love and being togetherWhen my loud guitar comes in

When my thumpin' drums come through

When my loud guitar comes in When my thumpin' drums come through

When my loud guitar comes in

When my thumpin' drums come throughWell, I don't think we have to be like this forever

There's more to life than love and being togetherThere's more to life than love and being together

Is there more to life than love and being together

I went away
