

# I'm Cold (Sav Studio Demo 11/77)

## The Cure

Begging me to stay  
But I'm laughing in your face  
You're so desperate  
Not to let those years of care  
All go to waste But it was you  
Who wanted love, not romance  
You've got to pay my price  
My body may be made of fire  
But my soul is made of ice I'm me, I'm cold  
I'm cold, I'm told  
I'd love to love you girl  
But my body  
My body has just been sold Begging me to stay  
But I'm laughing in your face  
You're so desperate  
Not to let those years of care  
All go to waste But it was you  
Who wanted love, not romance  
You've got to pay my price  
My body may be made of fire  
But my soul is made of ice I'm me, I'm cold  
I'm cold, I'm told  
I'd love to love you girl  
But my body  
My body has just been sold
