

# Don't Wait Too Long

## Bob Welch

Written by bob welch.Night after night, day after day

    The dream I keep havin' just won't stay away

    And it's you that's the star with the famous name

        Gettin' all that you wanted taken away(chorus)

    Two headed coin, the other side is gettin' strong

    And saying good things come to those who wait

    But don't wait too long...Hold out a candle, look in my eyes

        You'll see a prisoner, just learnin' to lie

        How does it go ?

        Just like a whisper on the wind

And the voice that gets louder before it disappears again(repeat chorus)Now that your famous, now that you're  
    rich

    You'd love to be young, but you can't find that switch

    You've come a long way, you've got nowhere to go

    Cause you've waited to long, and it's startin' to show
