

Blue

Chantal Kreviazuk

They say we're in a state of emergency
So how come no one is panicking Where were you when they wrote the news?
And how are you, are you feeling blue? Well, paper doesn't cause too much of a fuss
Perhaps it's because it's not, it's not sad enough Where were you when they wrote the news?
How are you, are you feeling blue?
You've never seen the color blue, blue Call me in the morning
We'll go for toast and tea Where were you when they broke the news?
How are you, are you feeling blue?
You've never seen the color blue
You've never seen the color blue Well you've never
No you've never seen the color
You've never seen the color blue
Never seen the color
You've never seen the color blue No, no, no you've never seen the color
Never the seen the color blue
You've never
You've never seen the color blue
No no you've never seen the color blue, oh
You've never seen the color blue
