

# **Sad & Lonely**

## **Daughter Darling**

Did they tell you I'd be boring?  
Do you know where to order the next morning?  
There is no guarantee  
That when you wake up, you'll be able to breathSo Ill throw you moonbeams  
Ill make you kick and scream  
Oh then baby Ill make you smile  
Then Ill make you bleedSad and lonelyDon't you look so sad  
You know it cant be that bad  
Just consider it to be  
Another way you'll see meDid you forget your place of ambition?  
I've seemed to move you from your only position  
You're so afraid of my reality cause it burns your eyes  
Makes you sad and lonely
