

Paper Wings

Little Auk

Moving through the day
Floating above surface
Never touchin' ground I'm quite insecure
If I'm moving back or forward
My pace is slow and sound I spread my paper wings
At surprising speed
I'm diving down I'm not even here
Look above your head
I'm smaller than a fly Ooh I never think
I always do
I never will fall into... Ooh I never do
I always think
I never will fall into... you You draw feathers on my wings
You just tape them to my skin
Funny I feel safe 'n sound Ooh I never think
I always do
I never will fall into... Ooh I never dare
To fall for you
I never will fall into... you Let me spread these paper wings for you Let me spread these paper wings for you Let
me spread these paper wings for you
