

# Carry Me Down

## Modern English

Slipping through the sand and the sand through your fingertips

Silence was the fear and the fear knew me all too well

Waiting at the edge of the sea, gazing at horizons quite naturally  
There's something in the air but I know it can't  
carry me

You know I won't believe you, you know I won't believe in time for now

There's something in the air but I know it won't carry me down  
The grains of sand which grace the land, warm  
against the sun

The calming sea holds mystery, pushing down and down

Riding with the tide, the sun relieves me  
There's something in the air but I know it can't carry me

You know I won't believe you, you know I won't believe in time for now

There's something in the air but I know it won't carry me down  
Carry me down

Carry me down  
Questions left unsaid but instead turn their backs on me

Silence was the key and the sea learned its lesson well

Waiting on the edge of time, the world is on my doorstep  
There's something in the air but I know it can't carry  
me

You know I won't believe you, you know I won't believe in time for now

There's something in the air but I know it won't carry me down  
There's something in the air but I know it can't  
carry me

You know I won't believe you, you know I won't believe in time for now

There's something in the air but I know it won't carry me down  
There's something in the air but I know it won't  
carry me down

There's something in the air but I know it won't carry me down

There's something in the air but I know it won't carry me down

(You know I can't, I won't, I can't, I won't)  
There's something in the air but I know it won't carry me down  
(You know I can't believe it)

There's something in the air but I know it won't carry me down

(You know I can't, I won't, I can't, I won't)  
There's something in the air but I know it won't carry me down  
(You know I can't believe it)

There's something in the air but I know it won't carry me down

(You know I can't, I won't, I can't, I won't)
