What You Want

Ingram Hill

It just took a minute to fall
My heart wasn't breaking at all
And you said to me
You were right where you wanted to be
Just when I thought we were fine
Your eyes seem to say you're not mine
You tell me to call
Pick up and say nothing at all, at all
Don't come around if you're lost
Until you consider what it will cost
You pull me then push me away
Chasing you is not any fun
Maybe I'm not what you want
This was all that you wanted to be
But something went wrong and I thought it was me
Such a shame, give love and you take it away
Such a shame, you won't stay
Don't come around if you're lost
Until you consider what it will cost
You pull me then push me away
Chasing you is not any fun
Maybe I'm not what you want
You mean half of the words that you say
You love me and hate me, all in the same day
It's broken, just won't go away
Maybe time is all we need now to find what you're all about
Don't come around if you're lost
Until you consider what it will cost
You pull me then push me away
Chasing you is not any fun
Maybe I'm not what you want
Don't come around if you're lost
Until you consider what it will cost
You pull me then push me away
Chasing you is not any fun
Maybe I'm, oh maybe I'm not what you want
It just took a minute to fall
It just took a minute to fall
