

# There Is No Other Time (Claptone Remix)

## Klaxons

There is no other time  
No other place  
No other day  
Cause we are already here I close my eyes  
I feel the flow  
Everything is moving forwards  
Letting go  
I see it clear  
It's telling me  
Tomorrow is just another story It's all around  
I feel it now  
I know that in a moment  
I can turn around  
I see it clear  
It's telling me  
Tomorrow is standing right  
In front of me There is no other time  
No other place  
No other day  
Cause we are already here It's in your eyes  
Within the flow  
Everything Is moving forwards  
Letting go  
I see It clear  
No fantasy  
Tomorrow is  
Standing right in front of me You're all around  
I feel you now  
I know that in a moment  
We can turn around  
I see it clear  
No Fantasies  
Tomorrow  
Is just another story In this moment  
We're moving forwards  
At this moment  
Moving Forwards There is no other time  
No other place  
No other day

Cause we are already here
