Above The Wreckage

Dishwalla

Watch her rise above the wreckage
See her fly through glass
See the world spin 'round again
Again, again, again and
Don't waste your beautiful, beautiful life
Don't waste your beautiful, your beautiful life - down here
Watch her rise above the wreckage - South of '64
Graceful arms are bent and broken - were meant for something more
Don't waste your beautiful, your beautiful life
Don't waste your beautiful, your beautiful life
Twisted bodies - surrender for the last time

Re-born angels - to bring the sun down on this world
Demons wasted as they run through red signs
From the black, I know you're finding your way back home
Finding your way back home
Don't waste your beautiful, your beautiful life
Don't waste your beautiful, your beautiful life
Don't waste your beautiful, your beautiful life - down here
Surrender for the last time
Re-born angels - to bring the sun down on this world
Surrender for the last time
And watch her rise above the wreckage
Surrender for the last time
