

Don't Stop Now (Home Demo)

Crowded House

Another pleasant day in the countryside
Has ended up in tears on a stormy night
'Cause you can't follow my directions home
But don't stop now God knows where the satellite's taking us
I can't tell what's right in front of us
But I hang on every word
And don't stop now
No, don't stop now
You give me something I can write about You get fooled by the lightning every time
See the after-image of my outline
And you turn the wrong way 'round
Well, don't stop now
No, don't stop now
You give me something I can write about
You give me something I can cry about In a church house ten miles out of town
Is the devil gonna track me down?
And travel through a tunnel in the trees
Just remember that's how you get to me There's no number on the house
The birds are heading south
Sometimes you have to turn
The wrong way 'round
Sometimes you get too close to nowhere now This is helpful in the silence
I wait with a blank piece of paper on the top of my head
And all I want is something I can write about
All I want is something I can cry about
Ooo
