Move Forward

Madcap

We'll unite as one to make a color not named
Because we can't move forward with this hate in the way
From coast to coast, nation to nation
No matter who you are or what you believe, you're freeYou can kick, you can punch
But you're never gonna break this
(Never gonna break this)You can kick, you can punch
But you're never gonna break this
(Never gonna break this)
This is the future according to meOur ears wide open to whoever may speak
To be judged by their words and not by skin
Ohh, money, no money, no status, no matter
And no matter what it does, it's all paperYou can kick, you can punch
But you're never gonna break this
(Never gonna break this)You can kick, you can punch
But you're never gonna break this
(Never gonna break this)
This is the future according to meRight here, right now
Excuses, all I hear as one red over call
Two portion, take home
I bet that your police and listen to all your callYou can kick, you can punch
But you're never gonna break this
You can kick, you can punch
But you're never gonna break this
