Questions

Montell Jordan

Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
Everybody wants to know
What?s my story, so here I go
I moved from Cali a year ago
Switched my style up, on the low
I won't discuss things form my past
I said I?d leave it but since you asked
Sometimes labels don?t last
But true artists can stand the test
So let them say what they wanna say
Just rumors about you
They?re always in your business people
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
When you are surrounded
With friends like these
You gotta figure out
Who?s the enemy?
You talk about me
You do me wrong
They think I am weak
But they make me strong
Sometimes I wish I could disappear
For the child we lost I shed a tear
I won?t pretend to understand
I?m leave it all, in God?s hands

So let them say what they wanna say
Rumors about you
They?re always in your business people
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
Oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh
They got so many questions
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
To their father of the hustlin'
To their mother of the strugglin'
To my sister who can make it
To my brother who can take it
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
Got so many questions
Everyone wants to know
Where you been, what you doing
How?s your life, questions
