

House On Fire

Tyler Bryant & The Shakedown

We got em buzzing / The engines are humming
Everybody's screaming and running
To get a taste of the madness
Nothing to lose / Aint waiting to move
Shaking the blues / Breaking the rules
It goes like this
Come on, Come on / Give trouble just a little kiss
Come on, Come on / Put your money where your mouth is
Were gonna set the house on fire tonight
Were gonna set the house on fire tonight
Once in a while / There comes a new kind of style
A freaky natural child / Who was born to be wild
We do whatever we want / Whenever we want
With whoever we want / Go ahead and try to tell us we won't
Come on, Come on / Give trouble just a little kiss
Come on, Come on / Put your money where your mouth is
Were gonna set the house on fire tonight
Were gonna set the house on fire tonight
Burning bright, burning bright
Till morning light, till the sky goes white
Come on, Come on / Give trouble just a little kiss
Come on, Come on / Put my money where your mouth is
Were gonna set the house on fire tonight
Were gonna set the house on fire tonight
Ill be shooting like a pistol in a knife fight
Were gonna set the house on fire tonight
