

# Wake Up

## Two Door Cinema Club

Goodnight, daylight  
I won't remember you for long  
Sleep tight, fist fight  
Until December's come and gone It's only late you have time  
With any reason that you find Somewhere in slumber  
Is someone who didn't see it coming If all this leaves you behind  
And everything starts to rewind It doesn't mean anything  
You won't remember what you see  
It could take you a lifetime  
A lifetime You got lost  
Lost through the night  
It's no loss  
You'll be alright Tell me you'll feel better  
When you're sleeping though the day  
And I'll tell you how you missed it  
When you wake It doesn't mean anything  
what you done or where you've been  
It was a chance of a lifetime You got lost  
Lost through the night  
It's no loss  
You'll be alright Tell me you'll feel better  
When you are sleeping though the day  
And I'll tell you how you missed it  
When you wake up (When you wake up)  
(When you wake up)  
(When you wake up)
