

# I Feel The Change

## Submersed

It's cold here  
Living in my world of fear  
I'm scared to let you know  
And let my feelings show  
How wrong I've been to wait this long I feel the change (I feel the change)  
Comin' over me again  
And I can't seem to let it go  
I feel the change (I feel the change)  
I cannot explain inside  
And I can't seem to let you go To live free  
From the grip of misery  
That piece I'd love to know  
Where once I used to go  
Before I was locked in your hold I feel the change (I feel the change)  
Comin' over me again  
And I can't seem to let it go  
I feel the change (I feel the change)  
I cannot explain inside  
And I can't seem to let you go (Go)  
I can't let it go Let it go Holdin' on now its takin hold  
I can never go there I feel the change (I feel the change)  
Comin' over me again  
And I can't seem to let it go  
I feel the change (I feel the change)  
I cannot explain inside  
And I can't seem to let you go I feel the change (I feel the change)  
I feel the change (I feel the change)  
And I can't seem to let it go  
I feel the change (I feel the change)  
I cannot explain inside  
And I can't seem to let you go
