

# Next One Is Real

## Minimal Compact

Advisory - the following lyrics contain explicit language:

I went out from an open cell  
blotted past just some rotten spell  
undress have another life  
I went down where the souls get hired  
worked for days then we all got fired  
under x in a dead-end file  
fake, deceit and the common lie  
next one is real  
next one is real  
next one is real  
understand well I'm quite aware  
human weakness for a perfect world  
under stress now have another round  
welcome back in the arms of hell  
have a few and you'll feel so well  
what a mess have another one  
I was gone but my ghost still cried:  
next one is real  
next one is real  
next one is real
