

# Shining Star

## Bars and Melody

You're my shining star  
I searched from near to far  
And all day long you were,  
right here my baby  
Yo the girls from every nation,  
your loves not an award  
it's a motivation ,  
we're miles apart,  
it breaks my heart,  
this love's a journey about to start,  
in the night you shine so bright  
darkness falls you give me light  
I feel you close but you're so far,  
but baby girl you're like a star  
when we speak, there's tears in my eyes,  
when I'm lonely,  
I look to the sky's,  
like three men who were so wise,  
but my love I see your eyes  
We're miles away, yeah, so far  
twinkle, twinkle my little star  
I feel you near, but you're so far  
Baby girl you're shining star  
You're my shining star  
I searched from near to far  
And all day long you were  
right here my baby  
You're my superstar  
and girl you own my heart  
and when we're worlds apart  
I'll be right here my baby  
oh oh oh way oh(x3)  
You're my shining star  
ti amo my italian bambino  
I fell in love with ya when I first seen ya  
Romanian girls te iubesc  
you know printesa you are the best  
kocham cie my polish queen  
I really like girls who have never been seen,

eu te amo  
I say on my kness  
for all my princesses if you're portuguese  
You're killin' me softly with all your words,  
I'm going crazy  
my vision's blurred,  
to all my frenchies Je t'aime,  
I love your voice  
I wanna hear it again  
I know you are in a land so far baby girl,  
you're like a star  
German girls Ich liebe dich,  
to be with you is my only wish
