

# Soldier Boys and Jesus Freaks

Noel Gallagher

All the people on the village green  
Are gathered round their TV screens  
To hear the government about to speak  
For soldier boys and Jesus freaks  
They go on Heaven on their holidays  
The congregation hopes and prays  
They leave their letters in the mail box  
For lonely souls they could not save  
Off and on I used hear the call  
But she was just a baby doll  
And all around them were the holy men  
Who twist the word of way back when  
She will kiss the sky and shelter all the world from the rail  
Put another record record on the jukebox  
She might dance the night away  
On and on we go and the rest of the world outside  
May soon explode and there is no place we might hide  
On and on we go and the rest of the world outside  
May soon explode and there is no place we might hide  
And on we go and we kiss this world goodbye  
and on and on and on and on  
All the people on the village green  
Are gathered round their TV screens  
To hear the government about to speak  
For soldier boys and Jesus freaks
