

Sun God

Katie Hope

Please, please, please, please, please
Won't you give your love to me, me?
Please, please, please, please, please
Won't you give your love to me, me?
Please, please, please, please, please
Won't you give your love to me, me?
Please, please, please, please, please
Won't you give your love to me, me?
Are you gonna give me your love?
Love would be enough
Are you gonna give me your love?
Love would be enough
Are you gonna give me your love?
Love would be enough
Are you gonna give me your love?
Love would be enough
We need each other
Come together as one
Love would be enough
Please, please, please, please, please
Won't you give your love to me, me?
Please, please, please, please, please
Won't you give your love to me, me?
Are you gonna give me your love?
Love would be enough
Are you gonna give me your love?
Love would be enough
Are you gonna give me your love?
Love would be enough
Are you gonna give me your love?
Love would be enough
We need each other
Come together as one
Love would be enough
We need each other
Come together as one
You got to live
You got to die
So what's the purpose

Of you and I?
 You want some passion
 You can receive
 And there ain't no question
 In this I believe
 You got to live
 You got to die
 So what's the purpose
 Of you and I?
 You want some passion
 You can receive
 And there ain't no question
 In this I believe
 You got to live
 You got to die
 So what's the purpose
 Of you and I?
 You want some passion
 You can receive
 And there ain't no question
 In this I believe
 You got to live
 You got to die
 So what's the purpose
 Of you and I?
 You want some passion
 You can receive
 And there ain't no question
 In this I believe
 You got to live
 Oh, you got to live
 We need each other
 Come together as one
 Love would be enough
 We need each other
 Come together as one
 Love would be enough
 Love would be enough
 Are you gonna give me your love?
 Are you gonna give me your love?
 Are you gonna give me your love?
 Are you gonna give me your love?
 Are you gonna give me your love?
 Love, love, love
 Love, give me love

Love, love, love
Love, give me love
Love, give me love
Love, give me love
Are you gonna give me your love?
Give me love
Love, give me love
