

# Your Night To Shine

[Clem Snide](#)

You're hiding behind  
that wolverine smile  
with your fist in my mouth  
it's your night to shineThe dance floor's ours  
and we care not for time  
as I crawled at your feet  
it's your night to shine  
it's your night to shine  
Mustard gas smell  
but I do not complain  
as the blood fills my lungs  
it's your night to shine  
it's your night to shine  
it's your night to shine  
it's your night to shine
