

# Turn My Head

## Honeymoon Suite

There's a heart on fire at the other end of the line  
But all my desire was [Incomprehensible] down over time  
I want everything I see but I really don't know what I want  
I ain't got money but I sure got a lot of dreams Baby, you can make me

Anything that you want

You can turn my head all the way 'round  
But don't drive me crazy One heart, your love is divided in two

I wanna be alone but I keep on thinking of you

She can build me up, she can tear me down

But it keeps my feet on the ground

Baby, cut me loose, I'll never let go, I'm not Oh, baby, you can make me

Anything that you want

You can turn my head all the way 'round

But don't drive me crazy Baby, you can make me

Anything that you want

You can turn my head all the way 'round

But don't drive me crazy, baby Baby, you can make me

Anything that you want

You can turn my head all the way 'round

But don't drive me crazy Baby, you can make me

Anything that you want

You can turn my head all the way 'round

But don't drive me crazy
