Second Chance

Creeper Lagoon

Advisory - the following lyrics contain explicit language:

Whose side are you on?
Is there a reason too?
You killed your soulYou said you wanted a real life
This isn't real life
And no one knows which way you'll goAnd I offer a second chance
To get even with circumstance
Right through the wallAnd even though you are sinkin'
You've got the self control
To rationalize your fadin' fateWell, I know where you're goin'
To the hole where you're hidin'
And I'm gonna pull you out againAnd I offer a second chance
To get even with circumstance
Right through the wall
