Grounded

Lions Lions

We came to right the wrongs.
They claim they brought us down.
No, not that easy.
I say this world is ours.

No we won't leave empty-handed.
Keep your chin up and your feet grounded.
We are unraveling the truth.
No, we won't be left stranded.
Keep your chin up and your feet grounded.
We are unraveling the truth.

We had so much to say.
They built barricades to stand in our way.
I say this world is ours.

We won't wait another day to carve our names tonight.
They twisted our words, tangled in knots...
We're unraveling.
