

Rise And Shine

Jack Blades

Wake up and see whats in your mind
No time to hide
Just launch your dreams against the wind
and ride that tide
Raise the bid, shout it from the mountains
Raise your hand, I feel it in the air
Ride the wind, its where its gonna take you
Is anyone alive out there
C'mon!
Rise and Shine
show yourself and the metal that you're made of
Rise and Shine
Shine on
Change a life
Kill the fear
There's nothing to it all yeah
Live your life its time to rise and shine
Yeah There was a time in my life I felt so alone
It was as though I lost my soul, a heart of stone
The sadder part, I'm never doin madness
No need to the meaning of it all
Callin out from the edge of the darkness
Is there anyone alive out there
Rise and Shine
show yourself and the metal that you're made of
Rise and Shine
Shine on
Change a life
Kill the fear
There's nothing to it all yeah
Live your life its time When you don't know what you dont know
Your just going, through it all
A wise man he once told me
This was true
So rise up
put your heat on
Find solid ground to put your feet on
The first step it will all come to you Rise and Shine
show yourself and the metal that you're made of

Rise and Shine
Shine on
Change a life
Kill the fear
There's nothing to it all yeah
Live your life its time Rise and Shine Rise and shine
Shine on
Change a life
Live your life its time
