

# I Want To Blow You Up

**Hilary Duff**

You say you want to invade me baby

You say you want to enslave me baby

(I want to blow you)

I want to blow you up

You say you want to free me baby

But you can not even see me baby

(I want to blow you)

I want to blow you up

I want to blow you sky high

Hi, goodbye

I want to blow you, blow you, blow you

Blow you up

You want to occupy my heart and soul

A black widow in a spider hole

(I want to blow you)

I want to blow you up

I want to blow you down an skip again

And then I'll blow you up and down again

I want to blow you, blow you, blow you

Blow you up

Hey, hey, hey

High, high, high

I blow you, kind of guy

I blow you, sky high,

Hey, hey, hey, high
