

# I Will Be There

## Odessa

If you ever need someone to cry to  
If you ever need someone to hold you

I will be there  
Standing by your side  
I will be there  
Standing by your side

If you ever need someone  
To just love you  
If you ever need someone  
To simply adore you

I will be there  
Standing by your side  
I will be there  
Standing by your side

From the mountains to the sea  
And the city  
From the valleys to the moon  
In every country

I will be there  
Standing beside you  
I will be there  
Standing by your side  
[Repeat x5]

I will be there
