

Stand

Avery Watts

(VERSE 1)

I'm standing at the edge of space and time
Deciding if my being alive is a crime
And if I jump and sail out into the abyss
How much will I really miss?

I'm inching closer, closer to my fate
Lacking a backup plan or escape
And I'm just about to finally go and move ahead
When a voice calls out to me
Here's what it said:

(CHORUS)

STAND

Every woman and man
This is a call for all to rise up and stand
STAND
Every woman and man
Raise up your voice and say that I can
STAND
Every woman and man
This is a call for all to rise up and
All rise up and sayâ€
I CAN

(VERSE 2)

Get back up on your feet
Youâ€™re much to strong to quit on me
Now dry your eyes and brace your back
Prepare for warfare
Here comes the attack

Youâ€™re nearly there so donâ€™t you stop
Making your very own way to the top
And when you see your victory
Together we will be
Weâ€™re now free

(BRIDGE)

Everybody nowâ€!

I CAN!
