

In the Hospital

Fort Lean

I don't ever wanna hit you
Not even with my hand
Cos I love you I don't want
Anything to happen but you gotta stop
When you climb up into the air
I can only beg you to come back down
I promise I won't lay a finger on you
Til you ask me, "come back"
I hope this night doesn't put you in the hospital
I don't mind if you wanna tag along
Whatever happens I will not be held responsible
I don't mind if you wanna tag along
I don't ever wanna hurt you
YOu always ask me again
I told you, that's not me
Please don't make me say it again
Please don't make me
Say it again
Oh, please don't make me
Say it again
I hope this night doesn't put you in the hospital
I don't mind if you wanna tag along
Whatever happens I will not be held responsible
I don't if you wanna tag along
I hope this night doesn't put you in the hospital
I don't mind if you wanna tag along
Whatever happens I will not be held responsible
I don't mind if you wanna tag along
