I Am Alive

Fight

I am, I said and I believe
I made it here for something
This is my time, I'm here and now
And I'll fight on to get thereWith prejudice in mind
Through fear nobody sees
Unwilling to accept
This ignorant diseaseBy my own right, I have a dream
This is my life, I'm someone
Look in my eyes, I'm everyman
Feel what I see inside youA damming of the facts
A way that's negative
Inside we're all the same
We have one life to liveThe virus in the heart
Enough to seal your fate
Look deep at what you are
It's time to kill the hateA narrow mind will give
A poisoned point of view
Take care of what you sow
The next one could be youBy opening the door
The end could be so sure
A joining of the hands
To seek and find a cureI am, I said
I am, I said
I have a dream
I am alive
