Go Back to the Zoo

I was born in '87
After the walls, before 9-11
Please, give me some peace I've been living with that weekend
I've been wondering for all these days
I guess I don't feel okay Take me in your arms tonight
Tell me everthing's all right
Take me to the other side
Take me home So many people
Try to find you
So many diamonds
And everything's for free
So many fish in the sea
I've never been a casanova
But do I want her
Or I just want someone
Someone to love me? Take me in your arms tonight
Tell me everything's all right
Take me to the other side
Take me home Take me in your arms thonight
Tell me everything's all right
Take me to the other side
Take me home Someone
For me
Someone
For me
I was born in '87
After the walls, before 9-11
Please, give me some peace Take me in your arms tonight
Tell me everything's all right
Take me to the other side
Take me home Take me to the other side
Take me to the other side
Take me to the other side
Take me home
