

Early Morning Light

[Sarah Jarosz](#)

All my troubles just begun
You and me the troubled ones
How are we supposed to learn
When to give up on this turn? Maybe we should try our hands
with some kind of different plans
Maybe they will make you see
All the things you meant to me So I'll move on down the line
Thinkin' I'll make it better this time
Moving far on down the track
And you won't see me looking back A wall of early morning light
Creeps into my bedroom quiet
I'll close the blinds to keep it out
My whole world is darker now Maybe I should head back home
Maybe I should sleep alone
Maybe that will make me see
All the things you meant to me But I'll move on down the line
Thinkin' I'll make it better this time
Movin' far on down the track
And you won't see me lookin' back
