Baby Blue

Chilliwack

Have you got something to tell me?
Please come up and tell it to me
Please come up and tell me
Baby blueHave you got a tear or two?
Well come on up and tell me do now
You can tell it all now
Baby blueReally baby, don't be shy
It's all right for me to talk to youSo let it all come out and let it all come through
Baby blueSomeone has been cruel to you
Someone has been unkind to you
How about you tell me
Tell me whoWho would want to treat you that way?
Who could stand to see you that way?
Who could make you cry now
Baby blue?Let it all come out and let it all come through
Baby blueSomeone hurt you bad
You don't have to take it so badReally baby, don't be shy
It's all right for me to talk to youSo let it all come out and let it all come through
Baby blue
Let it all come out and let it all come through
Baby blue
Let it all come out and let it all come through
Baby blue
