

Love Will Find a Way

Michael Franti & Spearhead

Til I'm gone away
this is what I'll say
this what I'll say
x 4 This is a song for all kinds of people
All of the cities and all of the streets yo
The synagogue and the mosque and the steeple
the battle between the good and the evil
some shoot bullets
some shoot needles
some are trying to get by with the legals
getting trapped behind the concrete walls
some are trying just to get equal Could you ever
could you ever
give more today?
Could you
give a little
give a little
to help love find a way? And when you're feeling like you can't go on
Love Will Find a Way
and through the clouds and smoke and guns and bombs
Love Will Find a Way
and when the whole world falls on their knees to pray
that love will win today
Just keep holding on, holding on
Cause love will find a way Til I'm gone away this is what I'll say
this what I'll say
x 4 Yo nobody's born hating another person
A mad world puts that poison in us
But if we can learn to hate another person
then we can learn to love a brother or sister
another mother or mister
Don't be part of the system
Join the universal nation
Communication
communication
in every nation
worldwide
worldwide Could you ever,
could you ever,

give more today?
Could you,
give a little,
give a little
to help love find a way? And when you're feeling like you can't go on
Love Will Find a Way and though the clouds and smoke and guns and bombs
Love Will Find a Way
and when the whole world falls on their knees to pray
that love will win today
Just keep holding on, holding on
Cause love will find a way Til I'm gone away this is what I'll say
this what I'll say
x 6 Every man woman and child
every color every nation every style
To create
to liberate
and to celebrate
not to hate
