

Thinking Out Loud

[Ron Sexsmith](#)

Thinking out loud is all I'm doing
Trying to raise my love above these ruins
With each song, I kick it around
Thinking, my love I can tell There's a load on your mind
If we poured ourselves
Like this bottle of wine and let it flow
We'll figure it out, thinking out loud But it's hard to think with all the racket
Going on inside our heads
All this worrying is getting us nowhere
Let's go somewhere instead Just thinking out loud
Is it all we're good for?
Trying to raise our love
But always falling short
