

Humungous Tree

Barenaked Ladies

I'm gonna plant this seed, this little tiny seed
And it is gonna grow into a giant tree
A gigantic tree, a ginormous tree
A humongous tree for all the world to see, yeah to see
You've gotta love the trees, they even help us breathe
They give us oxygen, they give us scenery
When I see a healthy trunk it makes me want to jump
But I feel the opposite when I see a stump, yeah a stump
Swingin' from the branches
Help me plant this seed, this
little tiny seed
And let us watch it grow into a giant tree
One gigantic tree here for you and me
For our children's, children's, children's, children's, children to see
