

# Join With Us

## The Feeling

Half past eight and you're late  
Coffee's cold, what a state  
They've dragged you down Fate's got you scraped  
Work to death  
Can't you turn them words around? Is it really what you want?  
Is it really what you need?  
Is it really what you choose, my dear? Is it really what you want?  
Is it really what you need?  
Is it really what you choose, oh, oh? The world is in your hands  
The world is in your hands  
The world belongs to those of us  
Who still believe we can And it matters what you do  
Though they all look down on you  
'Cos it's better that you've come from nothing  
Than nothing comes from you Come with us, come with us  
Come with us, come with us  
Join with us, join with us  
Join with us, join with us Don't make a sound  
Count your pennies  
Count your pounds  
There's no way out What will you do  
When all love gives up on you?  
Can't turn around Is it really what you want?  
Is it really what you need?  
Is it really what you choose, oh, oh? The world is in your hands  
The world is in your hands  
The world belongs to those of us  
Who still believe we can And it matters what you do  
Though they all look down on you  
'Cos it's better that you've come from nothing  
Than nothing comes from you Come with us, come with us  
Come with us, come with us  
Join with us, join with us  
Join with us We've got a place and it's here for you  
For all we ever wanted was a different view  
I never knew somebody live with so much pain  
If you open your heart, come with us and we'll take you away Come with us, come with us  
Come with us, come with us  
Join with us, join with us

Join with us, join with usCome with us, come with us  
Come with us, come with us  
Join with us, join with us
