

Whole Lotta You

A Rocket To The Moon

Sha la la la
Sha la la la
Let's go out, get lit, get loose tonight - yeah
Sing a song, get wrong, make it feel alright
Drinks on ice
Stars in our eyes
Ain't got a lot of money
But you're a dime
Hey, hey
All I need is a whole, whole lotta you
Everyday-day's
A holiday ain't nothing we can't do
Now all I need baby
Is a little time
And a whole lotta you
Sha la la la
Sha la la la
A whole lotta you
Sha la la la

Sha la la la
Get me buzzed on your love
Let me steal a kiss - muah!
Bubblegum on your tongue
No I can't resist
Gotta leave all your worries at the door
Cause' life ain't nothin but a big dance floor
[Chorus]Nobody wanna be alone, alone tonight
So come on baby take me home, home tonight
Nobody wanna be alone, alone tonight
So come on baby take me home
(Don't you want to take me home?)
Nobody wanna be alone, alone tonight
So come on baby take me home, home tonight
Nobody wanna be alone, alone tonight
So come on and take me home.
[Chorus]
