Notion

Coal Chamber

There it goes, it goes with her
It never leaves so easily
And there it goes, it goes with him
It never leaves so easily
And thoughts come
(Thoughts come)
And thoughts go
(Thoughts go)
Tear people apart
(Tear people apart)
Who don't know
(Who don't know)
It's just a notion that comes to me
It's just a notion that comes to me
It's just a notion that comes to me
It's just a notion that comes to me
Here it comes, it comes to her
It doesn't come so easily
And here it comes, it comes with him
It doesn't come so easily
And thoughts come
(Thoughts come)
And thoughts go
(Thoughts go)
Tear people apart
(Tear people apart)
Who don't know
(Who don't know)
It's just a notion that comes to me
It's just a notion that comes to me
It's just a notion that comes to me
It's just a notion
It's just a notion
It's just a notion
It's just a notion
It's just a notion
It's just a notion
It's just a notion
It's just a notion

It's just a notion that comes to me
(Notion)
It's just a notion that comes to me
It's just a notion that comes to me
It's just a notion that comes to me
It's just a notion
It's just a notion
It's just a notion
It's just a notion
It's just a notion
It's just a notion
It's just a notion
It's just a notion
It's just a notion that comes to me
