Hectic

Pete Philly & Perquisite

every time my people get hectic,
most my people just wanna disconnect it,
but every day they're trying to get it,
they now really wanna reconnect it.
most people just wanna give praise to it or even get a little bit hectic,
most the time they really don't get it

so where just gonna have to disconnect
(Chorus)
every time i'm trying to connect it,
lots of people wanna disconnect it,
for the people that don't really get it,
maybe they just a little bit to hectic(repeat twice)
