

# Secrets

## Golden Earring

Tell me what's happenin'  
Curiosity doin' me in  
Something strange happenin'  
You keep a closed door behind you  
Got a window I can't see through  
Lock your mail inside a drawer  
Never did me like that before  
Don't tell me it's another one of your secrets  
I smell conspiracy  
Don't let me down  
I'm on the outside baby  
Waitin' for a friendly sound  
Don't let me go to pieces  
Celebratin' all alone  
I come apart bit by bit  
Add a number to your top secret list

In between hot & cold  
You'll find the truth is  
Working against us  
I wanna know more  
Don't tell me it's another one of your secrets  
You make a move clandestine  
Underground hide & seek  
Getaway with incidents  
By lack of evidence  
On the verge of committing a crime  
Sendin' out a private eye  
Defender of innocence  
Trigger of coincidence  
Right between hot & cold  
Right between the left and the right eye  
Tonight for instance  
Don't tell me it's another one of your secrets
