Come with me now
Get Low

Breaks and Ohâ€™s and Ahs By Kellee Maize and DJ Detonate

[Verse 1]
Kellee Maize in the street like a stop sign
Me, Ang and Holz makin a sacred trine
Yoga alignin kundalini spine
Butterfly out tha confines freeing our dumb blinds
Owl tribe got my back like disciples
Armies jumpin out the tank we dropping rifles
Mayan brothers telling me the end of cycles
Smoki said I gotta guide you know him Michael

[Pre Hook]
Iâ€™ve heard scared wisdom
Iâ€™m here it was a vision
That weâ€™d all break it is written
Leave the third dimension prison
I heard owl time is now (oh oh oh oooo)
Each got a message know how (ah ah aha)
To evolve to something else (oh)
Butter fly our cosmic self (ah)

[Hook, Repeat]
Imma bout to
Explode
Come with me now

Get Low

[Bridge]
All the jediâ€™s here
Sure you heard the ring
I been waiting for da.....call
Now the love will win
Forgivin the sin
Shadow is the light, and the wound is raw
All the blood is thick and the trees are sick
and they bout to fall
Now the moon has spoke
Tell me where the sun
Breakin down his wall (3x)

[Hook]
Iâ€™m about to explode
Come with me now, get low
Let go, you know
you know
