

Fired Up

Jessica Simpson

Stone cold sober 'bout to get knocked out
Wanna party hard, wanna get real loud
A girl over there, damn near passed out
And that's what happens when you're in the crowd
Somethin' 'bout to make me get it up
Don't have to tell me to get fired up
If I don't move now I might erupt
Get fired up, fired up, fired up, fired up
All the girls on the floor better get fired up
Get fired up, get fired up
Boys on the wall better get fired up
(Get fired up, get fired up)
All my girls at the bar better get fired up
Get fired up, get fired up
Stop gettin' with mine better get fired up
(Get fired up, fired up, fired up)
Ah, ah, ah, watch out it's gonna blow
Ah, ah, ah, watch out it's gonna blow
Why you over there lookin' left out?
Everybody over here getting real loud
Wore those jeans here to shake your ass
So shake that thing 'til you lose your chance
Somethin' 'bout to make me get it up
Don't have to tell me to get fired up
If I don't move now it might erupt
Get fired up, fired up, fired up, fired up
All the girls on the floor better get fired up
Get fired up, get fired up
Boys on the wall better get fired up
(Get fired up, get fired up)
All my girls at the bar better get fired up
Get fired up, get fired up
Stop gettin' with mine better get fired up
(Get fired up, fired up, fired up)
Ah, ah, ah, watch out it's gonna blow
Ah, ah, ah, watch out it's gonna blow
Somethin' 'bout to make me get it up
Don't have to tell me to get fired up
If I don't move now it might erupt
Get fired up, fired up, fired up, fired up
Oh, get fired up, uh, oh, yeah, get fired up
(Get fired up, get fired up)
Uh, oh, all my girls get fired up
(Get fired up, get fired up)
Uh, oh, oh, come on
(Get fired up, fired up, fired up)
Oh, oh, ah, ah, ah
Watch out it's gonna blow
