

Careful What You Wish For

Bell X1

It's coming faster now
And I never thought I'd be here
Running past you now
But you're holding out on me Strip of lace on your collar bone
I think I caught you catching me
Is there is a time for us?
Or will we just hold on quietly,
White knuckles and dry tears?
And play our part in this
No spoiler, no reveal Careful what you wish for
Careful what you wish for
'Cause these bulbs are the fluorescent kind
And no one looks good in this light The crack is wide enough, already
Any more would be too bright,
To keep this alive
Yeah this sweet dull ache
In the shadow and half light Careful what you wish for
Careful what you wish for
'Cause these bulbs are the fluorescent kind
And no one looks good in this light Careful what you wish for.
Careful what you wish for.
'Cause these bulbs are the fluorescent kind
And no one looks good in this light
