

Jupiter

311

Sometimes the only thing that saves you
Think of bad things luck never gave you
And although your true love has just left you
Well at least your mother kept you
Yes she did Be sure that a dreams alive
There only short burst in life
Are you able to be satisfied
Do you expect fun all the time Hey we can rock it easy lay it in the fold
Hey we can shake you simply just by being cold
And if it falls apart will you still be my friend
Get back we're gonna stick together So many things that have gone wrong
At least you have ears to hear this song
And if you reading in close caption
There's still bad things that could have happened
Yes there is Long time since we've first came here
Sometimes we fall on deaf ears
One thing I've got to say before sales die
Stay positive and love your life Hey we can rock it easy lay it in the fold
Hey we can shake you simply just by being cold
And if it falls apart will you still be my friend
Get back we're gonna stick together
